REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record, Miles U.S. Patent Application Publication No. 2002/0111842, discloses a system for managing work orders using priorities, comprising:
a database management system... plurality of work orders (see Abstract → central database); a work order management computer (see Abstract); a time estimation process... the work order (see [211], [213]; see also Figs. 101, 103, and 105-116 → estimated number of hours the resource will be used on a work order); and a graphical user interface... update... database management system (see [0014], [0148], [0149], [213]; see also Figs. 6-8).

It was commonly known and would have been obvious to those of ordinary skill in the art that each priority level in a work order system should have a predetermined allocation limit for the purpose of not rendering the priority level function obsolete by allowing every work order to have the same priority level.

However, the prior art of the record, taken in combination or alone, fail to explicitly teach, suggest, or render obvious

- Querying to determine whether another engineer may loan a priority;
- Borrowing priorities from other engineers; or
- Permitting the engineer to negotiate with the other engineer to borrow a priority in that particular priority level.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
